## PROFILE

I'm a B.Tech IT student at Alliance University, specializing in Cloud Computing, with a strong passion for web development. I have 1+ year of experience, delivering fast, responsive websites and landing pages. Hardworking, creative, and ready to collaborate or intern on impactful tech projects. My goal is to merge technical expertise with creative design to deliver fast, functional, and client-focused web solutions.

## WORK EXPERIENCE

### Freelance Web Developer

- Designed and deployed responsive websites using Shopify, Wodpress.
- Customized UI/UX based on client feedback and user testing.
- Integrated GitHub workflows for version control and collaboration.
- Delivered Landing Pages in One Day.
